

I do not want you to weaken Indiana's privacy law concerning the do not call list. If these companies want to contact me they can send me a letter and then I may choose to contact them if I wish. Anything else is an invasion of my privacy because I pay for a service and that means I am renting the line does it not? Then shouldn't it be the same as renting property? I choose who I wish to come onto my property, isn't that the purpose of privacy laws? Please do not change the Indiana law regarding the DO NOT CALL LIST.
